

Schieß- und Splitterschutzvorhänge

RUTEC® Reflection-foil R1000

PRODUCT DESCRIPTION

RUTEC R1000 Reflection-foil is a very reasonable alternative to the conventional materials. The foil is produced of an excellent polyvinyl chloride quality and supports the digital hit recognition by his special color in shooting ranges. The foil can be used by the low dead weight by almost all heights and arrangements without problems.

TYPICAL APPLICATIONS INCLUDE

Reflection-foil to support the digital hit recognition.

SIZE / AVAILABILITY

The foil is produced in a width of 1.4 m and a length of 25 m, but it is also possible to get it for existing suspension systems as cuttings or endless loops. The material is available in the strength 0,3 mm.

→ Special dimensions with pleasure on inquiry!
